

oekom Corporate Rating

Dyesol

Industry: Renewable Energy & Energy Efficiency
 Country: Australia
 ISIN: AU000000DYE9
 MSCI:

Status **Prime**
 Rating **A-**

- A company is being classified as "Prime" if it ranks among the world's best companies within the same industry and fulfills the sector-specific minimum requirements defined by oekom research (best in class).
- The highlighted sections on the rating scales indicate the range of ratings achieved within the industry. The average rating is marked with a vertical line.
- If relevant information is not made available, it may result in a poorer rating of the company within the applied rating method.
- A company is being classified as F (failed) if, based on the definition by oekom research, it lacks transparency or has only very limited activities with respect to sustainability issues. In this case it does not qualify for a detailed assessment and the rating process is curtailed.

Strengths and Weaknesses

- + entire revenue derived from the development of solar power technology
- lack of transparency regarding the implementation of environmental management systems
- lack of transparency regarding measures to ensure compliance with the code of business ethics

Participation in Rating Process

Outside Ratings are primarily based on publicly available company documentation and external sources such as NGOs, authorities, trade unions, and the media.
